To,

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
B A N G A L O R E.

Sir,

With reference to your letter No.G.7615/G.M.76-19-2 of the 19th instant in regard to War trophies, I have the honour to state that in November 1918, the Secretary of the Recruitment & Publicity Board forwarded an extract from the resolution of the Board that a separate section for War trophies and other exhibits connected with the War may be opened in the Museum and enquired if the necessary space was available. A reply in the affirmative was sent to the Secretary.

2. A sufficiently instructive and imposing collection of objects connected with the War would ~~add to the~~ form an interesting feature in the Museum. Our Imperial Service Lancers have done some deeds of valour and deeds which perhaps deserve to be recorded in history. Objects which are directly connected with Mysore would, therefore, have an abiding importance and the Museum should try, as far as possible, to illustrate the local share in the War. Examples of all kinds of work done in Mysore for war purposes ~~and~~ may also be gathered. Such a collection would not only help the sentiment which, in a small measure, preserves family relics at home, but it would let the outside public know what part Mysore has played in the War. A collection of records and pictures would also ^{help} to keep green the personal and heroic side of the people.

12

3. As regards the exhibits those that deal with the personal aspect viz., the names and portraits of at least of and a few others some of those important personages who have taken an active part in the war and have rendered gallant and meritorious service may be gathered. From the material point of view, examples of weapons and other objects used in the war specially those which will illustrate as far as possible, the difference and similarities of the same object as adopted by the contending nations e.g. a German gun compared with similar weapons of the French and the English, the picture of a town after and before bombardment &c. &c., and such other exhibits as will arouse the people on the historical and educational side would be of immense interest in the Museum.
